

Rahul Kopikar, Head of Business Development

Rahul Kopikar is Co-Founder and Head of Business Development at Seclore Technology. In his role he handles the direct Sales, OEM Partnerships, Operations and Training.

Rahul's experience of almost a decade has seen him handling operations, marketing, business development and engineering, in all stages of a Product life-cycle. He is also adept at managing cross-functional teams for small fast-paced projects, as well as large complex projects.

Prior to Seclore, Rahul was with Marvell Semiconductor, Inc, USA. At Marvell, Rahul started with the Technology team and moved on to Sales & Marketing with OEM Channels. In 2006, Rahul relocated to India, to set up the Marvell India operations.

Prior to that, Rahul served as a Research Engineer at Stanford University, USA.

Rahul holds a Bachelors Degree in Electrical Engineering from IIT, Bombay and a Masters in Electrical Engineering from Cornell University, USA. He holds 3 Patents in the field of Wireless Communication and RF design.

Rahul is a sportsman, a keen swimmer, with several Gold medals to his name.
